Re: Kramer Unit 1-24
SW/4 Sec. 24-05S-37W
Cheyenne County, Kansas
15-023-21394-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Kramer Unit 1-24 well.

The original 365 days for closure expired on 07/09/2015. This extension will expire on 12/09/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

This letter is to request an extension for closing the pit on:

Kramer Unit 1-24
SE-SE-SW-SW 24-5s-37w
Cheyenne County
API Well # 15-023-21394-00-00

I have contacted Flatlander Dirtworks to close the pit, they are going to check to see if it can be closed in the next couple of days, but there is a chance of rain and the roads are so bad in that area that they may not be able to get in. I am sorry that I was not paying more attention to the time line on this well. Please call me if you need anymore information.

Thank you,

Michele Meier
