Re: Wilkinson 3-18
NW/4 Sec. 18-17S-34W
Scott County, Kansas
15-171-21082-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Wilkinson 3-18 well.

The original 365 days for closure expired on 07/25/2015. This extension will expire on 10/16/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Dear Ms. Haynes,

The original 365 day period allowed for the pits to be closed on the subject well will expire on July 26, 2015. The reserve pit is still too wet to close. We have closed the fresh water pit and working pits and hauled 2 loads of water from the reserve pit to expedite the drying process. Would you please give us a 90 day extension of time and we will make every effort to close the reserve pit as quickly as possible.

Thanks for your consideration of our request.

Very truly yours,
Eagle Creek Corporation

Dave Callewaert
President
