Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Sells Doxon Bunker Unit C-1 well.

The original 365 days for closure will expire on 05/30/2015. This extension will expire on 08/30/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.*

Please complete the pit closure form (CDP-4) through KOLAR (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in the regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Sincerely,

Dear Ms Haynes;

I am requesting an extension for closing the reserve pit on the Sells Doxon Bunker lease. We set 7 inch casing and intended to drill one to three 6 1/8 inch horizontal laterals 700 to 2,000 feet to the north east. The first horizontal was scheduled to start in November or December. Because of the low oil price and other factors we have postponed our drilling to this summer or fall.
