Re: Deforest 9  
SE/4 09-22S-04E  
Marion County, Kansas  
15-115-21480-0000

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Deforest 9 well.

The original 365 days for closure expired on May 13, 2015. This extension will expire on August 11, 2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.*

Please complete the pit closure form (CDP-4) through KOLAR (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in the regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Sincerely,

  
Ryan A Hoffman  
Director

RE: OPERATOR 5192, PIT CLOSURE FOR DEFOREST #9 API 15-115-21480

Dear KANSAS CORPORATION COMMISSION:

We are writing to request a three month extension on the pit closure for the DeForest #9 that was drilled in May 2014. The working pits have been closed; however, the reserve pit has been too wet to cover due to extensive rainfall. We anticipate we will be able to complete the pit closure and file necessary paperwork as soon as weather permits.

We appreciate your attention in this matter. Please let me know if you have any questions or need additional information.

Sincerely,

Craig Settle
