Re: Pinnick A 1-33X
SE/4 Sec. 33-09S-24W
Graham County, Kansas
15-065-24027-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Pinnick A 1-33X well.

The original 365 days for closure expired on 03/22/2015. This extension will expire on 6/22/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Dear Mrs. Haynes,

This letter is in reference to the Notice of Violation dated June 1, 2015 regarding the subject wells.

Due to adverse weather conditions, we have not yet been able to complete the surface restoration on the subject drill sites. I ask that the KCC please grant an extension for the CDP-4, and I will submit the report as soon as the sites are both restored completely.

Please call the undersigned should you have any questions, or require further information.

Sincerely,
COBALT ENERGY, LLC
