Re: Rogers 3  
NW/4 Sec. 15-22S-04E  
Marion County, Kansas  
15-115-21484-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Rogers 3 well.

The original 365 days for closure expired on 09/19/2015. This extension will expire on 12/19/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

Good Afternoon Kathy

I need to request an extension on a pit closure. Due to the rain this summer our pits are not drying enough to cover, the pits are in a wheat field and we do not want to put the farmer at risk of sinking heavy equipment. I have attached the pit application which should provide all information needed. Please call with any questions. 316-841-0022

Thanks  
William Hanson
