exempt status under Rule K.A.R. 8 and that the foregoing pressure is correct to the best of my knowledg of equipment installation and/or up	rjury under the laws of the state of Kansas that I am authorized to request 32-3-304 on behalf of the operator Merit Energy Company Information and statements contained on this application form are true and ge and belief based upon available production summaries and lease records con type of completion or upon use being made of the gas well herein named.						
gas well on the grounds that said	xemption from open flow testing for the Baker C 2						
(Check one)	ethane producer						
is cycled on plu	is cycled on plunger lift due to water						
is a source of r	natural gas for injection into an oil reservoir undergoing ER						
is on vacuum a	at the present time; KCC approval Docket No.						
is not capable	of producing at a daily rate in excess of 250 mcf/D						
	e best of my ability any and all supporting documents deemed by Commission this claim for exemption from testing.						
Date: November 30, 2015							
	Signature: Katherine McClurkan Hotherwa McClurkan						

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
