exempt status under Rule K.A.R. 82-3-304 on behalf and that the foregoing pressure information and st correct to the best of my knowledge and belief base	atements contained on this application form are true and dupon available production summaries and lease records ation or upon use being made of the gas well herein named.
is on vacuum at the present time is not capable of producing at a	ater ection into an oil reservoir undergoing ER ; KCC approval Docket No daily rate in excess of 250 mcf/D y any and all supporting documents deemed by Commission
staff as necessary to corroborate this claim for exe Date: November 30, 2015	mption from testing.
Received KANSAS CORPORATION COMMISSION DEC 0 2 2015 CONSERVATION DIVISION WICHTA, KS	Examine McClurkan Hatherine M. Clurkan Regulatory Analyst

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
