exempt status under Rule K.A.F and that the foregoing pressur correct to the best of my knowled of equipment installation and/o	perjury under the laws of the state of Kansas that I am authorized to request R. 82-3-304 on behalf of the operator Merit Energy Company re information and statements contained on this application form are true and edge and belief based upon available production summaries and lease records rupon type of completion or upon use being made of the gas well herein named. It exemption from open flow testing for the Drew A 5
is cycled or is a source is on vacuu	I methane producer I plunger lift due to water Of natural gas for injection into an oil reservoir undergoing ER OF at the present time; KCC approval Docket No
- · · · ·	the best of my ability any and all supporting documents deemed by Commission ate this claim for exemption from testing.
Date: November 30, 2015	<u> </u>
DEC 0	
CONSERVATION WICHIT	ON DIVISION A, KS

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
