RE: Replacement Well For  
Koch Appleman #1 SWDW  
SE SE Sec. 36-27S-35W  
Grant County, Kansas

Gentlemen:

While cleaning-out the Appleman #1 SWDW, a 4-7/8" bit and scraper became stuck at 1328'. The 2-7/8" was cut off at 1290' and the tubing could not be pulled. A Free Point was run and the tubing was stuck all the way up to 362'. The tubing was backed-off at 302' and pulled. The well evidently has a hole in the casing above 362' and filled the casing with sand.

Rather than try to clean-out this old salt water disposal well, Koch plans to plug and abandon it and drill a new salt water disposal well right along side this old well. Please approve the enclosed Application as soon as possible to enable Koch to put the two producing wells back on production.

Sincerely,

  
Orvall L. Schmidt  
Vice President - Operations
