exempt status under Rule K.A.R. 82-3-304 of and that the foregoing pressure information correct to the best of my knowledge and be of equipment installation and/or upon type of	er the laws of the state of Kansas that I am authorized to request on behalf of the operator Merit Energy Company on and statements contained on this application form are true and lief based upon available production summaries and lease records of completion or upon use being made of the gas well herein named. from open flow testing for the Lohrens A-1
gas well on the grounds that said well:	
is on vacuum at the pres  ✓ is not capable of produc	
staff as necessary to corroborate this claim	n for exemption from testing.
Date: November 30, 2015	
Received KANSAS CORPORATION COMMISSION  DEC 0 2 2015  CONSERVATION DIVISION WICHITA, KS	Signature: Katherine McClurkan Wysherin McClurs  Title: Regulatory Analyst

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
