I declare under penalty of perjury under the laws of the state exempt status under Rule K.A.R. 82-3-304 on behalf of the operator and that the foregoing pressure information and statements concorrect to the best of my knowledge and belief based upon available of equipment installation and/or upon type of completion or upon under the laws of the statements concorrect to the best of my knowledge and belief based upon available of equipment installation and/or upon type of completion or upon under the laws of the statements and that the foregoing pressure information and statements concorrect to the best of my knowledge and belief based upon available of equipment installation and/or upon type of completion or upon under the laws of the statements.	r ARES Energy, Ltd. tained on this application form are true and ole production summaries and lease records se being made of the gas well herein named.
gas well on the grounds that said wall.	
is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection into an of is on vacuum at the present time; KCC approvation is not capable of producing at a daily rate in extended the staff as necessary to corroborate this claim for exemption from the Date: December 11, 2015	ul Docket No ccess of 250 mcf/D upporting documents deemed by Commission
	Ny N. Clanton Clanton, Managing Partner

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
