	penalty of perjury under the laws of the state of Kansas that I am Rule K.A.R. 82-3-304 on behalf of the operator Berexco LLC	authorized to request
and that the foregoin correct to the best of of equipment installat	ng pressure information and statements contained on this applica my knowledge and belief based upon available production summa tion and/or upon type of completion or upon use being made of the g a one-year exemption from open flow testing for the	ries and lease records
is i	a coalbed methane producer cycled on plunger lift due to water a source of natural gas for injection into an oil reservoir undergoin on vacuum at the present time; KCC approval Docket No not capable of producing at a daily rate in excess of 250 mcf/D o supply to the best of my ability any and all supporting documents of corroborate this claim for exemption from testing.	
Date: _12/15/15	————	Received KANSAS CORPORATION COMMISSING DEC 28 2015
	Signature: BH BH. Title: Petroleum Engineer	CONSERVATION DIVISION WICHITA, KS

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
