Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Kohl 19 well.

The original 365 days for closure expired on 08/23/2015. This extension will expire on 1/14/2016. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

RE: Surface Pit Closure Extension  
Kohl #19 Well  
Trego County, KS. 67672

Dear Ms. Haynes:

I have recently received a "Notice of Violation" letter listing the Kohl #19 well as missing a completed CDP.4 form. This is correct.

I have informed the landowner of the necessity to close the working pits within one year of the spud date of the well.

Because quality sand was encountered when the pits were dug, the landowner has asked for an extended time period to remove the sand before pit closure.

Therefore, I would ask the KCC for a ninety day extension to close the pits and complete the CDP-4 form.

Any questions regarding this issue can be directed to Ken Kohl, 785-726-3321(office) or 785-650-7690(cell).

Sincerely,

Kenneth Kohl  
Vice President
