Re: J7 Land 13-2

NW/4 Sec. 13-21S-36W Kearny County, Kansas 15-093-21929-00-00

## Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the J7 Land 13-2 well.

The original 365 days for closure expired on 09/26/2015. This extension will expire on 2/09/2016. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, but not the time period for filing the waste transfer form (CDP-5).

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <a href="https://kolar.kgs.ku.edu">https://kolar.kgs.ku.edu</a>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Pit Closure Violation Extension.

Importance:

High

Attn: Kathy Haynes

Hartman Oil Co., Inc. would like to request a 90 day extension for the Surface Pit Closure for the J-7 Land #13-2 (API# 15-093-21929-00-00) in Kearny Co, KS. The reasons are up until recently there was a crop on it and we could not get to it and then it has rained out here recently and is now to wet/soggy to get in and backfill.

Please let us know if this is a reasonable request.

Thank you,

Angie
