exempt status under Rule K.A.R. 82-3 and that the foregoing pressure infor correct to the best of my knowledge a	ry under the laws of the state of Kansas that I am authorized to request 8-304 on behalf of the operator White & Ellis Drilling, Inc. rmation and statements contained on this application form are true and and belief based upon available production summaries and lease records type of completion or upon use being made of the gas well herein named.							
I hereby request a one-year exemption from open flow testing for the Cole #1-35								
gas well on the grounds that said wel	A:							
is a source of nature is on vacuum at the is not capable of p	ger lift due to water ural gas for injection into an oil reservoir undergoing ER ne present time; KCC approval Docket No producing at a daily rate in excess of 250 mcf/D est of my ability any and all supporting documents deemed by Commission							
Received Kansas corporation commission DEC 2 1 2015 Conservation division Wichita, ks	Signature: Title: Dan Flowers, Production Superintendent							

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
