exempt status under Rule K.A.R. 82-3-304 on be and that the foregoing pressure information ar correct to the best of my knowledge and belief b	nd statements contained on this application form are true and passed upon available production summaries and lease records impletion or upon use being made of the gas well herein named.
is on vacuum at the present is not capable of producing	to water r injection into an oil reservoir undergoing ER time; KCC approval Docket No at a daily rate in excess of 250 mcf/D ability any and all supporting documents deemed by Commission
KCC WICHITAsign DEC 3 1 2015 RECEIVED	ature: Bull Duck. Title: Petroleum Engineer

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
