Instructions:

If a gas well meets one of the e-gibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided _bove in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buil time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressue shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
