Re: Achenbach B 4
SE/4 Sec. 02-35S-13W
Barber County, Kansas
15-007-24231-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Achenbach B 4 well.

The original 365 days for closure expired on 09/25/2015. This extension will expire on 2/09/2016. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: Surface Pit Closure for KS location:
Achenbach B #4
S/2 N/2 NE SE Sec. 2-35s-13w
2130 FSL, 660 FEL
API 15-007-24231-00-00

Kathy Haynes:

It has come to my attention that the above location has not yet been fully restored because the pit location is too wet to complete the work. This is due to local precipitation since its use in the drilling of the well. As soon as it is practical, Berexco LLC will see that the pit closure work is completed, and the CDP-4 Pit Closure Form filed.
Thank you for your attention to this matter.

Richard R. Smith
