Reason for Investigation:

Request by Jon Myers to check status of well.

Problem:

Well number 10-C (15-107-23367-00-00) and 11-C (15-107-23368-00-00) status is spud on 11/14/1991 and 11/18/1991, status source legacy. Last operator claims well was not drilled.

Persons contacted:

None.

Findings:

There are no wells at the location for wells 10-C (15-107-23367-00-00) and 11-C (15-107-23368-00-00). Operator McGown Drilling (5786) has drilled on the property under the Randall lease since 2010. In that time I have never seen gas wells in these location. Also, Chris McGown with McGown Drilling once stated that there were intents for gas wells on the property, but says they were never drilled.

Actions / Recommendation **Follow-up Required** ☐ **Deadline Date:**
