KCC OIL/GAS REGULATORY OFFICES

Inspection Date 02/02/2016 District: 3 Incident Number: 5458

- New Situation Lease Inspection
- Response to Request Complaint
- Follow-up Field Report

Operator License No: 34341 API: 15-091-20528 Q3 N2 Q2: N2 Q1: NW
 Operator Name: Whitlow Energy, Inc. SEC 6 TWP 14 RGE 23 RGEDIR E
 Address: 26400 West 151st St. FSL: 4950
 City: Olathe FEL: 3960
 State Kansas Zip Code: 66061 Lease: Sandow-Airport Well No.: 1
 Phone contact: 913-856-8898 County: JO

Reason for Investigation:

The operator contacted me to help locate this inactive gas well.

Problem:

Persons contacted:

Steve Whitlow 913-378-4829

Findings:

I met with the operator on 2-2-2016 to search for the well. I did not find any evidence of a well at the surface in the location given for the well. There is currently a house near the location and a gravel drive way has been built in the spot where the well is supposedly located. I spoke with the couple who lives in the house and they had no recollection of any well being on their property. They did not build the house and were never told by the previous owner that there was a well on the property. The operator and I located every other gas well in the section that was listed on his license and all the wells were accounted for. If the footage location listed for the well was off, I was not able to find another well in the section that could possibly be the Sandow-Airport #1.

Actions / Recommendation

Follow-up Required

Deadline Date:

It is possible that the Sandow-Airport #1 was plugged and cut off before the house and drive way were built. If it was drilled in a different location in the section then it has not been found to date.
