To Whom It May Concern:

The Shell B-7 originally produced from the Pawnee, Cherokee, Atoka, Morrow and St Louis formations. We set a CIBP at 4642', which isolated the Morrow and St Louis formations. Attached is an amended commingle application and a copy of the amended newspaper publications reflecting the changes.

If there are any questions or concerns regarding this matter, please contact me at 620-629-4228 or to Idania.medina@meritenergy.com.
