

UPDATE REPORT

Date: January 4, 2016

Operator: Haliburton Oil Producing Company

License: 5988

Location: C-SW-NW/4 Sec. 23-2-30W

Lease: Jording # 1

County: Decatur

Findings:

- On the above reported date a file review was conducted to determine the status of the Jording # 1 that appears in RBDMS as 'SP'.
- The Jording # 1 located C-SW-NW/4 of section 23-2-30W is a plugged SWD well. The spud date was July 13, 1962. The assigned API # is 15-039-00408-0001. The well was drilled to a depth of 4104' with 8 5/8 surface casing having been set @ 293' W/225 sx and 5 1/2 casing set @ 4090' W/185 sx.
- The well was re-worked and converted to a SWD well. The well was plugged on December 28, 1985. The plugging contractor was Kelso Casing Pulling # 6050. The operator's plugging report indicated no pipe recovery due to 1000' of paraffin in the hole. The bottom did not get sanded off. The top of the tubing was @ 2232' and was apparently cemented in the hole.
- The documentation supports the well-being plugged on December 28, 1985.
