Closure of Drill Pit - Extension of Time Unavailable**

Operator:

A review of your recent correspondence and/or our files indicates that the referenced pit remains open, and that a further extension of time to close the pit is not available to you. The pit is or was required to be closed by April 17, 2016.

If you wish to obtain an exception to K.A.R. 82-3-602, you will need to file a formal application and publish notice under K.A.R. 82-3-100. Note that the application may or may not be granted. You may contact our legal department if you have questions about that process.

If the referenced pit is not closed along with a Surface Pit Closure ("CDP-4") Form submitted, or alternatively if a formal application has not been filed, by **June 15, 2016**, staff may make a penalty recommendation to the Commission, which may result in a monetary fine.

You are welcome to contact me with any questions, by either calling the phone number at the top of the page or emailing me at k.haynes@kcc.ks.gov.

Sincerely,

Kathy Haynes

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Chain Ranch A 3 well.

The original 365 days for closure expired on 10/17/2015. This extension will expire 4/17/2016. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

API# 15-007-24237-00-00

Dear Kathy:

I would like to request a time extension for the Surface Pit Closure on the referenced well.

We have been working on closing the Reserve Pit, but it has been too wet to complete the closure. We do intend to get it finished as soon as possible.

Thank you.

Sincerely,

Re: Additional extension request for pit closure: Spangenberg 35-3, SENWNENW Sec 35, T21S, R14W; API 185-23900-0000; Stafford, Co.

To Whom It May Concern:

Coral Production Corporation was granted a three month extension, expiring January 30, 2016 for closure of the drilling pit at the above-referenced lease. Due to additional precipitation, water has accumulated in the pit and more time is needed before closure can be completed. We are requesting an additional extension until March 15,2016.

If you have any questions, please call me at (303) 623-3573 extension #101.

Sincerely,

James C. Wieger
Geologist
