Re: Younger B 7
NW/4 Sec. 20-13S-17W
Ellis County, Kansas
15-051-26751-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Younger B 7 well.

The original 365 days for closure expired on 10/18/2015. This extension will expire 4/18/2016. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: D-Oil, Inc.'s Pits on the Younger "B" #7 located NW/4 Section 20-13S-17W, Ellis County,
Kansas. API # 15-051-26751-00-00.

Dear Mrs. Haynes:

I have been checking the pits weekly over the last two months. They were still to wet to close completely. On February 23rd I had a cat out and we closed all but about a 25' x 25' area of the Reserve Pit. I checked them the next day and there was no free water to pick up, but this area is still too soft to backfill. I would like another 3 month extension for these pits. If the weather is conducive we should be able to get them done in that time. I do not want to close these too soon. That only causes problems with the field down the road.

I would like to ask for an extension to June 10th, 2016. We should be able to get them done within this time.

Thanks for your time.

Sincerely,

Terry W. Piesker
D-Oil, Inc. Operations Manager

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Younger B 7 well.

The original 365 days for closure expired on 10/18/2015. This extension will expire on 3/10/2016. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Re: Pit Permit for D-Oil, Inc.- Younger "B" #7- Issued 10/14/2014. API # 15-051-26751

Dear Mrs. Hanes,

D-Oil is asking for an extension of time to backfill the Reserve Pit on the above mentioned permit. Everything has been done except for the Reserve Pit. I have been checking it every two weeks and it is still not dry enough to backfill. Hopefully we can get it within the next 6 months, depending on what kind of weather we have.

We would like to ask for at least a 6 month extension. I will check this every two weeks until they can be closed properly.

Thanks for your time.

Sincerely,

Terry W. Piesker
