Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Furthmeyer 6 well.

The original 365 days for closure expired on 12/19/2015. This extension will expire on 5/09/2016. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.*

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

  
Ryan A. Hoffman  
Director

RE: Surface Pit Closure Extension Request  
API# 15-051-26745-00-00 Furthmeyer #6 5-14S-19W Ellis County

We are requesting an extension on the above Surface Pit Closure for the Furthmeyer #6. We have contractors ready to close the above pits, but due to inclement weather we have been unable to get the pits closed. With the recent 6" snow and significant frost in the ground, to attempt to close the pits now would end up in causing additional land damage and not a proper backfill. As soon as practical we plan on getting the pits closed.

We will be using J & J Roustabout, Jamie Stabb feel free to call him at 785-650-3119 to confirm our intent to close as soon as practical.

Thank you and feel free to call me if you have any questions. My phone # is 785-656-3540
