

KCC OIL/GAS REGULATORY OFFICES

Inspection Date 06/30/2016 District: 3 Incident Number: 5620

- Response to Request, Field Report, etc.

Operator License No: 33097 API: 15-003-23388-00-00 Q3 Q2: Q1: NE
Operator Name: Southern Star Central Gas Pi SEC 27 TWP 22 RGE 19 RGEDIR E
Address: 4700 Hwy. 56 FSL:
City: Owensboro FEL:
State KY Zip Code: 42301 Lease: McAdams Well No.: 7
Phone contact: 270-852-5000 County: AN

Reason for Investigation:

Operator requested inspection.

Problem:

Well on inventory as status inactive, but operator says well does not exist.

Persons contacted:

Buzzy Barker (785-448-7853); Charlie McConnell (270-852-5000)

Findings:

In 2009 when plugging began by Southern Star on the McAdams lease, six well locations were recorded by the KCC using a GPS unit. In the time period between 2009 and 2013 Southern Star plugged six wells on the McAdams lease. In 2013 Southern Star submitted a plugging report for well #3 (15-003-22801-00-00), which according to their GPS generated maps happened to be in the same location as records show well #7 (15-003-23388-00-00) was drilled. For instance, a drill card submitted in 1992 was found for #7 on the KGS Library with footages that show the well at 4180 FSL, 220 FEL, similar to KCC GPS location MCA06 (SENE; 4074 FSL, 229 FEL). I believe Southern Star designated that location as well #3 (15-003-22801-00-00) and that there is no seventh well on the lease.

Actions / Recommendation

Follow-up Required

Deadline Date:

Enter latitude and longitude for the six wells that were plugged on the McAdams lease. Remove the "inactive" well from the Southern Star well inventory.
