Findings:

Ace Energy's employees located an abandoned well at this location. After researching available records it was agreed upon that this well was the Peggy Kruger # L 85 (15-037-01527). On 10/25/2017 the well was plugged. A previous operator had this well listed as L 88. RBDMS records now indicate that there is another well at this location but none have been found. The entry on RBDMS should be updated to correct intent #L 88 (15-037-01526) as not being drilled.
