**Reason for Investigation:**

Abandoned well listed on operators expired license that is coded on RBDMS as on the plugging list.

**Problem:**

No well at this location.

**Persons contacted:**

Chris McGown, representative for Clint Eastwood. 620-224-7406

**Findings:**

I arrived on the Holeman Lease on 02/22/2017 and went to the location where well #1-92 was suppose to be located. After searching the area no well was found to be above surface. I did find in this location a spot where it appears a well was years ago. Reminiscence of old cement was present. It appears this well was plugged years ago. There is also an API#15-011-22778-00-01 on the Holeman Lease that is also well #1-92 under Reese Oil Company license (5115). I went to this location also and could not locate a well above ground or any indications a well was at this location.

**Actions / Recommendation**

**Follow-up Required**

**Deadline Date:**

Refer my findings to Jon Myers, Litigation Council, with the recommendation that these wells be coded as plugged in RBDMS and removed from the plugging list.
