CASING RECORD

Describe in detail the manner in which the well was plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same and depth placed, from _____ feet to _____ feet for each plug set. _____ and abandoned as a dry hole in 1929. At the request of the _____

The above well was plugged and abandoned as a dry hole in 1929. At the request of the Conservation Division of the Corporation Commission of the State of Kansas, December 12, 1946, the well was re-opened and replugged as follows: The well was cleaned out and 10" Casing drove to a total depth of 143'. Changed to 8" Tools. Well cleaned out with 8" Tools from 143' to a total depth of 230' at which depth a rock bridge was set. 7" O.D. Casing run to 224' and cemented with 75 Sacks of cement from bottom to top. Cement circulated.

Original well drilled by The McPherson Oil & Gas Development Company.
