Reason for Investigation:

Request from Legal Staff in Wichita to verify status of McNett #I1 API#15-207-25945-00-00 and McNett #I2 API#15-207-25951-00-00

Problem:

Well #I1 and #I2 are listed on license as "PL" wells.

Persons contacted:

Findings:

I located an injection well at the location listed as well #I1 3072FSL 384 FEL and well #I2 3063FSL 765 FEL. I found no other evidence near the well locations above ground that would indicate any other wells were drilled. I checked the vicinity of both wells with a metal detector and found no indication to believe there is a buried well near these well locations. RBDMS and KGS both show two wells listed at the exact locations of well #I1 and #I2. I believe the wells listed as Mico Oil & Gas #I1 API#15-207-25945-00-00 and #I2 API#15-207-25951-00-00 were not drilled and were expired and the wells at the location are in fact the McNett #I1 API#15-207-26038-00-00 and the #I2 API#15-207-26037-00-00 listed to belong to Edward Birk, license #8210.

Deadline Date:

Forward information to Legal Staff verifying my findings that there is one (1) well listed at the above-mentioned well locations listed as McNett #I1 and #I2 and they belong to Edward Birk license #8210.
