Re: Hobbs Unit 19-1
NE/4 Sec. 19-10S-24W
Graham County, Kansas
15-065-24105-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Hobbs Unit 19-1 well.

The original 365 days for closure expired on 08/28/2016. This extension will expire on 01/17/2017. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: Hobbs Unit #19-1
Sec. 19-10S-24W Graham County, KS
API #15-065-24105-00-00

Ms. Haynes:

Please accept this letter as our request for a time extension to close the drilling pits associated with the referenced well along with the filing of the necessary CDP-5 and CDP-4 forms.

Due to the extreme wet spring and summer in Western Kansas, the pits have not dried sufficiently and are still too wet to backfill at this time.

We will continue to monitor and inspect the well site and backfill as soon they are dry. We would appreciate your consideration for an additional 3-6 months to backfill these pits.

Sincerely,

Charles Ramsay
President,
H&C Oil Operating, Inc.
