Re: Brooks 13-6-25 # B-1
SW/4 Sec. 13-06S-25W
Graham County, Kansas
15-065-24111-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Brooks 13-6-25 # B-1 well.

The original 365 days for closure expired on 08/14/2016. This extension will expire on 01/10/2017. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: Request for an extension for Surface Pit Closure
Lease Name: Brooks 13-6-25, Well # B1
API Well #: 15-065-24111-00-00
Well Location: 13-6S-25W, NENESWSW, Graham County

Dear Kathy,

We are requesting a 90-day extension for the surface pit closure of the above Lease. The lease ground had been too wet and then the land owner planted a corn crop before we could get back into the pit area. As soon as the corn crop gets harvested within the next month, we should be able to get back in to close the surface pit and then submit the closure to you.

Please let us know if you need anything else.

Thank you,

Larry D. Taylor
