Re: Becker Trust 19-1
SW/4 Sec. 19-16S-08W
Ellsworth County, Kansas
15-053-21336-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Becker Trust 19-1 well.

The original 365 days for closure expired on 08/04/2016. This extension will expire 02/04/2017. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Dear Ms. Haynes,

The reserve pits on these two drilling locations have not sufficiently dried to permit backfilling. LB Exploration, Inc. is requesting an additional extension to backfill these pits.

Best regards,

Michael Petermann

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Becker Trust 19-1 well.

The original 365 days for closure expired on 8/04/2016. This extension will expire on 11/18/2016. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman

Dear Ms. Haynes,

Due to the amount of rainfall received on these two drilling locations the surface pits have not sufficiently dried to permit backfilling. LB Exploration, Inc. is requesting an extension of six months to backfill these pits.

Best regards,

Michael Petermann
