*Mr J.R. Johns.*

*This well was plugged back from the Viola line to the Chat. with cement & Seducal. Bud then had them dump 12 sacks of cement after deciding to expand well, which cemented off the Chat. and up in the 8 1/2 casing to 2978'. They have decided not to complete plugging this well, but done it for a saltwater expand well, as Mr Allison said they were going to drill another well or two on the lease.*
