Re: Parish #2
SW SE SW Section 6-21S-13W
Stafford County, Kansas

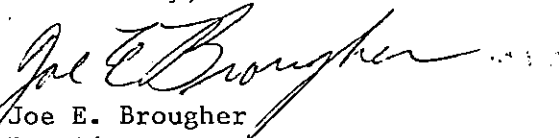

Gentlemen:

Enclosed please find a Well Plugging Application Form (CP-1) and Drillers Log covering the above described well located in Stafford County, Kansas. This well had been used as a re-pressuring well.

On October 30, 1977 Mohawk Drilling, Inc. was contracted to attempt to clean the hole out on the Parish #2 as it had stopped taking water. Mohawk ran their drilling tools (jars, rope socket, stem and bit) to a depth of 300' and got the tools stuck. In an attempt to free them, the tools were lost in the hole. They then checked the 4½" casing to see if the string was intact and found the pipe loose. Mohawk then pulled 8 joints (222.42') of 4½" casing and attempted to fish their tools, but were unsuccessful. The 8 5/8" surface pipe was then closed in and left.

At this time we desire to properly plug this well according to your specifications. Thank you for your cooperation.

Yours truly,

Joe E. Brougher
President
