Date of closure: 07/10/2017

Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

Native drilling mud and shale from the wellbore.

Abandonment procedure of pit:

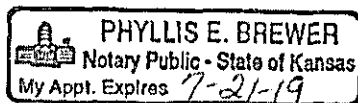

Backfilled the pits and leveled the location and returned as close as possible to its natural state.

This form was filed on 7/11/17 but KOLAR would not let me put in the correction to the location for the actual haul off pit location. So I am filing a paper copy.

The undersigned hereby certifies that he / she is President for Grand Mesa Operating (Co.), a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.
