Re: Dewerff 1
SW/4 Sec. 32-22S-12W
Stafford County, Kansas
15-185-23952-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Dewerff 1 well.

The original 365 days for closure expired on 11/21/2016. This extension will expire 05/21/2017. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RECEIVED

Sir or Madam:

Due to circumstances beyond my control, I have been unable to entirely close the drilling pits on the above mentioned well.

I have been able to close all working pits and have crowded the reserve pit to a smaller and contained size. Windows in the banks allow wind to help dry up this pit.

With the recent spring rains, it has been a futile attempt.

I truly believe that with an extension of six months, this can be accomplished properly.

Thank you for your consideration into this matter.

Sincerely,

A handwritten signature in cursive script that reads "Richard Stalcup".

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Dewerff 1 well.

The original 365 days for closure expired on 11/21/2016. This extension will expire on 04/17/2017. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Re: Surface Pit Closure
Dewerff # 11
API # 15-185-23952-00-00

Dear Ms. Haynes

We are in receipt of your Notice of Violation letter on the above mentioned well.

We have been trying to close the pit and have crowded it several times. The area has not dried out sufficiently to close the pit.

We would ask for additional time to get the pit closed.

Thank you for your consideration and prompt response.

Sincerely,

GLOBE OPERATING, INC.
