Re: King 1-12  
NE/4 Sec. 12-15S-21W  
Trego County, Kansas  
15-195-23004-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the King 1-12 well.

The original 365 days for closure expired on 03/16/2017. This extension will expire on 06/16/2017. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.*

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

RE: Request to Extend Closure of Drilling Pit  
King 1-12  
Trego County, Kansas  
API Nbr. 15-195-23004-00-00

Dear Kathy:

With regard to our telephone conversation on March 17, 2017, on behalf of the request to extend the allowable time to close the drilling pit located on the King 1-12, we would appreciate your consideration to extend the current expiration date of March 14, 2017. Currently, the status of the drilling pit notes no standing water, simply mud.

Thank you for your consideration. I will await your response.

Sincerely,

**Steve Bodine**
