Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Holcomb 1-7-14-34 well.

The original 365 days for closure expired on 05/19/2017. This extension will expire on 10/20/2017. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Hey Kathy,

They would like a little more time to close this pit. I am okay with it if you want to give them a 3 or 6 month extension. Thanks. Case

Hi Case,

We are doing some contract work for Cynosure Energy, / Coachman Energy Operating Company. We have a location out in Logan County that I would like to request a few more weeks to get the pits closed and location leveled. Below is the information on the lease. The pits have been crowed and should be very close to being ready to fill. My plans are to run out there early next week to make sure we are ready to fill them in. The heat and lack of moister the last few weeks should have really helped.

Holcomb #1-7-14-34

Please let me know if we can get a couple more weeks.

Thanks, Bob
