| <p>On 6/7/2017 I received a call about an abandoned gas well venting gas and the Johnson County Fire Department was on scene, and they were to stay there until the potential issues were resolved. The contractor was still there when I arrived. I discussed the situation with the contractor and the Fire Chief and the decision was made to vent the gas up in the air about 15 foot. That was done and the Fire Department left.</p> <p>On 6/8/2017 KWS moved equipment, set surface and washed 1" pipe to 455 ft and hit hard. On 6/9/2017, cement was pumped from TD to surface. Pulled the 1" pipe and topped off the well. Total Portland cement pumped was 121 sacks. This well is plugged.</p> |  |  |  |
