Comments: Found what appeared to be old location in rough pasture. Using metal detector I picked up very strong single at the base of small cedar and the GPS coordinates below. Augured a hole at this location and encountered either cement or gray shale, and water at approx 3'. Would have to be dug up to verify. Legacy Operator was Crescent Oil & Gas Corp. Spud date 1/03/1962 / TD reached on 1/16/1962. Well was a DH approved for plugging. No plugging report to be found. Last recorded Lease was Fred Hambright to Vess Oil Corp. on Mar. 29/2006, Bk 308, Pg 158,160,162. Vess currently operates a well (Hoagland 1-36) in theNWSW/4 & drilled a DH (Hoagland B 1-36) in the NWSE/4 P&A in 8/18/2006. See attached landowner information.
