Show depth and thickness of all water, oil and gas formations.

Oil, Gas or Water Records		Casing Record (Surface, Conductor & Production)			
Formation	Content	Casing	Size	Setting Depth	Pulled Out

Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

Plugging was done according to rules and regulations of the Kansas Corporation Commission. Mr. Ralph Tittle was the KCC representative that was on location when the well was plugged. Doug Ward was the person who did the plugging. He no longer qualifies as a plugging contractor. There was 2100 feet of casing recovered. 212 sacks of cement was used to plug.
