Re: Dreiling C 1
SE/4 Sec. 24-12S-16W
Ellis County, Kansas

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Dreiling C 1 well.

The original 365 days for closure expired on 01/04/2018. This extension will expire on 04/04/2018. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas, On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

API# 15-051-26,859-00-00Number of pages in this FAX including cover sheet 1**NOTE:**

We would like to request a pits closure extension for the above-described well. The freshwater pit has been emptied; however the reserve pit is soft on the bottom, and surface owners do not like to have it closed until it is dry. The soil composition in the area accounts for slow drainage.

Your consideration in this matter will be greatly appreciated. If you need further information, you can also visit with our foreman, Val Dreher at (785) 483-8356.
