Problem:

Operator not renewing their license and has a unplugged well on their license.

Findings:

I went back to the Curry lease to try and find an unplugged well. Well #3-06, API #15-001-29500-00-00 is on the above mentioned operator license. I recently tried to locate this well on 05/02/2018 with no success. Field report #6171 states what steps were involved at that visit. I used a metal detector and went approximately 150' by 150' diameter around the location where this well was suppose to be located. No evidence was found during the inspection. No well is above surface at the stated location.
