RE: Update to Williams' Overland Pass Pipeline ACO-1, Ogallah Cathodic Protection Installation,  
API# 195-33596-00-00

15-195-33596-00-00

Mrs. Ritter,

As we discussed this morning on the phone, Williams Overland Pass Pipeline operates a cathodic protection well in Trego County that was permitted by OneOK in 2009. A recent review of documents related to this installation revealed that the well location provided in the ACO-1 for the site is incorrect. Attached is an updated copy of the ACO-1 that includes the correct location of the well. The revisions have been highlighted to aid in identifying them on the form.

If there are any additional questions regarding this information, please feel free to contact me at your convenience. My email is [Jason.Bowker@williams.com](mailto:Jason.Bowker@williams.com), and my phone is 713-215-3030.

Thank you for your time this morning and assistance in the best method to revise the information.

Sincerely,

Jason Bowker, Environmental Specialist IV  
Williams – Houston, TX
