OIL AND GAS LEASE

VOL 140 PAGE 580

THIS AGREEMENT made this 17th day of February, 2005, between Gilbert Ochsner, R1 Box 324, St. Francis, KS 67756, herein called lessor (whether one or more), and Bear Petroleum, Inc., lessee:

Lessor, in consideration of Ten Dollars (\$10.00) in hand paid, receipt of which is here acknowledged and of the royalties herein provided and of the agreements of the lessee herein contained, hereby grants, leases and lets exclusively unto lessee for the purpose of investigating, exploring, prospecting drilling, mining and operating for and producing oil, liquid hydrocarbons, all gases, and their respective constituent products, injecting gas, water, other fluids, and air into subsurface strata, laying pipe lines, storing oil, building tanks, power stations, telephone lines, and other structures and things thereon to produce, save, take care of, treat, manufacture, process, store and transport said oil, liquid hydrocarbons, gases and their respective constituent products and other products manufactured therefrom, and housing and otherwise caring for its employees, the following described land, together with any reversionary rights and after-acquired interest, therein situated in Cheyenne County, Kansas, to-wit:

RECEIVED

AUG 29 2005

South Half (S/2)

In Section 30, Township 19, Range 41W, and containing _____ acres, more or less, and all accretions thereto.

Subject to the provisions herein contained, this lease shall remain in force for a term of one (1) year from this date (called "primary term") and as long thereafter as oil, liquid hydrocarbons, gas or other respective constituent products, or any of them, is produced from said land or land with which said land is pooled.

The royalties to be paid by lessee are: (a) on oil, and other liquid hydrocarbons saved at the well, one-eighth of that produced and saved from said land, same to be delivered free of cost at the wells or to the credit of lessor in the pipe line to which the wells may be connected; (b) on gas, including casinghead gas and all gaseous substances, produced from said land and sold or used off the premises or in the manufacture of gasoline or other products therefrom, the market value at the mouth of the well of one-eighth of the gas sold or used, provided that on gas sold at the wells the royalty shall be one-eighth of the amount realized from such sale; and (c) at any time, either before or after the expiration of the primary term of this lease, if there is a gas well or wells on the above land (and for the purposes of this clause (c) the term "gas well" shall include wells capable of producing natural gas, condensate, distillate or any gaseous substance and wells classified as gas wells by any governmental authority) and such well or wells are shut in before or after production therefrom, lessee or any assignee hereunder may pay or tender annually at the end of each yearly period during which such gas well or gas wells are shut in, as substitute gas royalty, a sum equal to the amount of delay rentals provided for in this lease for the acreage then held under this lease by the party making such payments or tenders, and if such payments or tenders are made it shall be considered under all provisions of this lease that gas is being produced from the leased premises in paying quantities. Such substitute gas royalty may be paid or tendered in the same manner as provided herein for the payment or tender of delay rentals.

Lessee is hereby granted the right to pool or consolidate the leased premises, or any portion or portions thereof, as to all strata, or any stratum or strata, with other lands as to all strata, or any stratum or strata, but only as to the gas right hereunder (excluding casinghead gas produced from oil wells) to form one or more gas operating units of not more than 640 acres, plus a tolerance of ten per cent (10%) to conform to Governmental Survey quarter sections. Lessee shall file written unit designations in the county in which the premises are located. Such units may be designated either before or after the completion of wells. Drilling operations and production on any part of the pooled acreage shall be treated as if such drilling operations were upon or such production was from the land described in this lease whether the well or wells be located on the land covered by this lease or not. The entire acreage pooled into a gas unit shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if it were included in this lease. In lieu of the royalties herein provided, lessor shall receive on production from the unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.

If, prior to the discovery of oil, liquid hydrocarbons, gas or their respective constituent products, or any of them, on said land or land pooled therewith lessee should drill and abandon a dry hole or holes thereon, or if, after discovery of oil, liquid hydrocarbons, gas or their respective constituent products, or any of them, the production thereof should cease from any cause, this lease shall not terminate if lessee commences reworking or additional drilling operations within sixty (60) days thereafter, or (if it be within the primary term), (i) in the case of a dry hole, commences or resumes the payment or tender of rentals or commences operations for drilling or reworking on or before the rental paying date occurring twelve (12) months after the expiration of the rental period during which such dry hole was drilled, or (ii) in the case of cessation of production, commences or resumes the payment or tender of rentals or commences operation for drilling or reworking on or before the rental paying date next ensuing after the expiration of three (3) months from the cessation of production. If, at the expiration of the primary term, oil, liquid hydrocarbons, gas or their respective constituent products, or any of them, is not being produced on said land or land pooled therewith but lessee is then engaged in operations for drilling or reworking of any well thereon, this lease shall remain in force so long as drilling or reworking operations are prosecuted (whether on the same or different wells) with no cessation of more than sixty (60) consecutive days, and if they result in production, so long thereafter as oil, liquid hydrocarbons, gas or their respective constituent products, or any of them, is produced from said land or land pooled therewith.

Lessee shall have free use of oil, gas, and water from said land, except water from lessor's wells and tanks, for all operations hereunder, including repressuring, pressure maintenance, cycling, and secondary recovery operations, and the royalty shall be computed after deducting any so used. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by lessee on said land, including the right to draw and remove all casing. When required by lessor, lessee will bury all pipe lines below ordinary plow depth. Lessee shall pay for damages caused by its operations to growing crops on said land. No well shall be drilled within two hundred feet (200 ft.) of any residence or barn now on said land without lessor's consent. Lessor shall have the privilege, at his risk and expense, of using gas from any gas well on said land for stoves and inside lights in the principal dwelling thereon, out of any surplus gas not needed for operations hereunder.

The rights of either party hereunder may be assigned in whole or in part and the provisions hereof shall extend to the heirs, executors, administrators, successors, and assigns, but no change or division in ownership of the land, rentals or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of lease. No such change or division in the ownership of the land, rentals or royalties shall be binding upon lessee for any purpose until such person acquiring any interest has furnished lessee with the instrument or instruments, or certified copies thereof, constituting his claim of title from the original lessor. In the event of an assignment of this lease as to a segregated portion of said land, the rentals payable hereunder shall be apportioned as between the several leasehold owners ratably according to the surface area of each, and default in rental payment by one shall not affect the rights of other leasehold owners hereunder. An assignment of this lease, in whole or in part, shall, to the extent of such assignment, relieve and discharge lessee of any obligations hereunder, and, if lessee or assignee of part or parts hereof shall fail or make default in the payment of the proportionate part of the rentals due from such lessee or assignee or fail to comply with any other provision of the lease, such default shall not affect this lease in so far as it covers a part of said lands upon which lessee or any assignee thereof shall make payment of said rentals.

Lessee shall not be liable for delays or defaults in its performance of any agreement or covenant hereunder due to force majeure. The term "force majeure" as employed herein shall mean: any act of God including but not limited to storms, floods, washouts, landslides, and lightning; acts of the public enemy; wars, blockades, insurrections, or riots; strikes or lockouts; epidemics or quarantine regulations; laws acts, order or requests of federal, state, municipal or other governments or governmental officers or agents under color of authority; freight embargoes or failures; exhaustion or unavailability or delays in delivery of any product, labor, service, or material. If lessee is required, or ordered or directed by any federal, state or municipal law, executive order, rule, regulation or request enacted or promulgated under color of authority to cease drilling operations, reworking operations or producing operations on the land covered by this lease or if lessee by force majeure is prevented from conducting drilling operations, reworking operations or producing operations, then until such time as law, order, rule, regulation, request or force majeure is terminated and for a period of ninety (90) days after such termination each and every provision of this lease that might operate to terminate it or the estate conveyed by it shall be suspended and inoperative and this lease shall continue in full force. If any period of suspension occurs during the primary term, the time thereof shall be added to such term.

Lessor hereby warrants and agrees to defend the title to said land, and agrees that lessee, at its option, may discharge any tax, mortgage, or other lien upon said land, and in the event lessee does so, it shall be subrogated to such lien with the right to enforce same and apply rentals and royalties accruing hereunder toward satisfying same. In case said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties, including substitute gas royalty, and rentals herein provided for shall be paid the said lessor only in the proportion that his interest bears to the whole and undivided fee; however, such rental shall be increased at the next succeeding rental anniversary after the acquisition of any additional interest in the above described property, whether it be by reversion or after-acquired title, or if such additional acquisition occurs after production be obtained, then the royalty shall be increased to cover the interest so acquired. Should any one or more of the parties named above as lessors fail to execute this lease, it shall nevertheless be binding upon the party or parties executing the same.

If the leased premises shall hereafter be owned in severally or in separate tracts, the premises, nevertheless, shall be developed and operated as one lease, and all royalties accruing hereunder shall be treated as an entirety and shall be divided among and paid to such separate owners in the proportion that the acreage owned by each such separate owner bears to the entire lease acreage. There shall be no obligation on the part of the lessee to offset wells on separate tracts into which the land covered by this lease may be hereafter divided by sale, devise, or otherwise, or to furnish separate measuring or receiving tanks.

Lessee and Lessee's successors and assigns shall have the right at any time to surrender this lease, in whole or in part, to lessor or his heirs and assigns be delivering or mailing a release thereof to the lessor, or by placing a release thereof of record in the county in which said land is situated; thereupon lessee shall be relieved from all obligations, expressed or implied, of this agreement as to the acreage so surrendered, and thereafter the rentals payable hereunder shall be reduced in the proportion that the acreage covered
