Re: Thohoff Lease (change of operator)
Sec. 5-24-19E
Allen County, KS

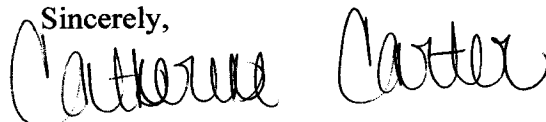

Dear Raigosa,

The State's request for additional information regarding the location of wells 7,8,9,10, and 11 has been forwarded to me by the previous operator. In researching the matter I believe that the location of the above mentioned wells provided on Form T-1 was derived from information previously on file with the State. I also believe that previous operators apparently established said well locations by measuring from the east line of the private property on which the wells are located, rather than from Section five boundaries. After conferring with Allen County as to boundary lines of Section 5 and a survey employing GPS coordinates, the locations have been established by using Section five boundary lines and hereby filed accordingly.

Regarding the T-1 form's request for surface pit identification, from information provided me there is no information available for this section as no surface pits exists and one is not needed under present operations. Any surface pit existing at previous times has, based on information available to me, been closed.

The New Owner/Operator ("Steward Energy") now has all well information. Therefore, should any additional information be needed or if the filing is not fully correct, please feel free to contact me at the following local address:

Attn: Catherine Carter

Sincerely,

Catherine Carter
