When filing a Form T-1 involving multiple surface owners, attach an additional sheet listing all of the information to the left for each surface owner. Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

Select one of the following:

- ☒ I certify that, pursuant to the Kansas Surface Owner Notice Act (House Bill 2032), I have provided the following to the surface owner(s) of the land upon which the subject well is or will be located: 1) a copy of the Form C-1, Form CB-1, Form T-1, or Form CP-1 that I am filing in connection with this form; 2) if the form being filed is a Form C-1 or Form CB-1, the plat(s) required by this form; and 3) my operator name, address, phone number, fax, and email address.
- ☐ I have not provided this information to the surface owner(s). I acknowledge that, because I have not provided this information, the KCC will be required to send this information to the surface owner(s). To mitigate the additional cost of the KCC performing this task, I acknowledge that I must provide the name and address of the surface owner by filling out the top section of this form and that I am being charged a \$30.00 handling fee, payable to the KCC, which is enclosed with this form.

If choosing the second option, submit payment of the \$30.00 handling fee with this form. If the fee is not received with this form, the KSONA-1 form and the associated Form C-1, Form CB-1, Form T-1, or Form CP-1 will be returned.

I hereby certify that the statements made herein are true and correct to the best of my knowledge and belief.

Re: Thohoff Lease (change of operator)
Sec. 5-24-19E
Allen County, KS

The State's request for additional information regarding the location of wells 7,8,9,10, and 11 has been forwarded to me by the previous operator. In researching the matter I believe that the location of the above mentioned wells provided on Form T-1 was derived from information previously on file with the State. I also believe that previous operators apparently established said well locations by measuring from the east line of the private property on which the wells are located, rather than from Section five boundaries. After conferring with Allen County as to boundary lines of Section 5 and a survey employing GPS coordinates, the locations have been established by using Section five boundary lines and hereby filed accordingly.

Regarding the T-1 form's request for surface pit identification, from information provided me there is no information available for this section as no surface pits exists and one is not needed under present operations. Any surface pit existing at previous times has, based on information available to me, been closed.

The New Owner/Operator ("Steward Energy") now has all well information. Therefore, should any additional information be needed or if the filing is not fully correct, please feel free to contact me at the following local address:
