RE: *Hesse Petroleum Company, LLC – Reno County Leases*
Our File No. 8727-02

Dear John:

You will find enclosed a letter that my client, Hesse Petroleum Company, LLC, sent to the Commission advising that Hesse had acquired new leases on lands in Sections 20, 29 and 30, Township 23 South, Range 10 West, Reno County and had been able to establish production from pre-existing wells located thereon.

You will note the lower right hand corner of the letter contains a request of someone on your Staff to fill out the T1 Form. I am enclosing with this letter new T1 Forms. However, the prior operator information has not been filled out because this does not involve the transfer of a lease or leases. My client has taken new leases from the mineral royalty owners on the subject lands, has undertaken work on the wells that were previously drilled, and has now re-established production. Therefore, this was not a transfer of a prior lease from a prior operator; in fact, the prior leases were terminated by judicial decree in the District Court of Reno County, Kansas.

Should you have any questions, please feel free to contact me.

Very truly yours,
TRIPLETT, WOOLF & GARRETSON, LLC
